

Mahope O Ke Kula Ke A'o Mau Ana Program

Lesson 3. Develop an Investigation

Use this form to plan out your investigation. Begin with a question relating to your chosen topic. This question will be answered in your investigation.

Question:

Our Hypothesis (The answer to your question. Your investigation will determine if it is correct.)

Independent Variable (Which trait are you changing?)	
Dependent Variable (What will change as a result of the independent variable?)	
Control (Variable that will stay the same for all tests)	

Necessary Tools

How will data be collected/presented?	How much data will need to be collected?
