

Mahope O Ke Kula Ke A'o Mau Ana Program

Lesson 4. Presentation

Answer the prompts below to help you plan out how you will present the findings of your experiment.

Which details of your experiment are most important to share in your presentation?

--

How do you plan on displaying the data you collected?

--

What type of presentation will you create and what materials are needed to create it?

--

What tasks need to be done to complete your presentation? If working in a group, divide the work fairly.

--
